## Half Mask Cartridge Respirator DS-32-4

Geneva 430 Half Mask (top)  
and P971 Combination Cartridge (right)

The selection and use of the correct Personal Protective Equipment is essential to effectively protect users from risk by creating a barrier against workplace hazards.

The HP430 Geneva Half Mask is a premium quality half mask manufactured from high quality silicone for exceptional comfort.

### **FEATURES:**

- Complies to EN 140 - Respiratory protective devices - Half masks and quarter masks
- Material - Silicone
- Size - One Size with Adjustable strap fastening for flexible sizing
- CE-CAT III
- Bayonet connection
- 4 points plastic suspension harness
- Ergonomically designed for unrestricted movement, comfort and breathability
- Front exhalation valve.

### **FILTER SELECTION GUIDE:**

A range of Bayonet Filters complying to EN143:2000/EN14387:2004 are available.

The most popular is the HP971 combination filter which combines all the available filter types into a single cartridge.

- HP971 - Combination Filter – combines :

Class A2 – Brown - Organic Vapours and Gases with boiling point of 65°C and above (solvents and hydrocarbons).

Class B – Grey - Inorganic Vapours and Gases (excluding Carbon Dioxide/Monoxide).

Class E – Yellow - Sulphur Dioxide and other Acidic Vapours and Gas

Type K - Green - Ammonia and its Organic Ammonia Derivatives Vapours and Gases .

Type P – White - Dusts/Particles

Note :

NOT suitable for protection against isocyanate paints which require Air Fed Respirators.

These products provide optimum and safe performance only when used in accordance with manufacturer's instructions, with suitably trained operators, and when provided with adequate recommended power requirements.
