CARBON MONOXIDE MONITOR

AIR QUALITY TEST EQUIPMENT :

The RPB Carbon Monoxide Monitor checks for the presence of carbon monoxide in the air-stream.

- Designed for use with the Radex Breathing Air Filter and Air Fed Helmets such as the Nova 2000, or Sperian Painting Mask.
- The unit is simple to use and has an internal rechargeable battery.
- The CO monitor continually monitors the CO level and records the data for up to 2 years.
- CO exposure level data can be downloaded to a PC.
- Factory calibrated.
- Supplied mounted in a rugged carry case for site use which can be attached to the Radex filter.
- The RPB Carbon Monoxide Monitor can be linked to a system with external alarms and relays to activate solenoids which can shutdown equipment as a safety measure.

ORDER CODES

Order Code	Description
08-200	Carbon Monitor in Carry Case with Software

Notes :

Does not remove toxic gases such as carbon monoxide.

This product only provides correct performance when used in accordance with manufacturer's instructions
