Graco NXT Airless Sprayer

The Graco NXT is the worldwide industry standard for airless spray painting. The name 'airless' derives from the fact that the material being sprayed is atomised by hydraulic pressure at the spray tip. Working at high pressures, the NXT is designed to cover large surfaces quickly with the toughest coatings. The NXT is tested to out perform and outlast all other sprayers.

Supplied as a ready to go package - with:

- XTR Spray Gun (7250 psi wp), 15m x 3/8 paint hose with 3 metre ¼ whip (not shown), 1 metre Suction Hose (not shown), Filters and Reverse-a-Clean Spray Tip.

Typical uses :

- Application of protective coatings on ships, bridges, construction vehicles, railcars, or containers, as well as interior and exterior painting and decorating, and the application of fire protective coatings.

Optional:

- Digital Data Trak Monitor provides material usage data and system diagnostics.

POPULAR MODELS AND SPECIFICATIONS

Model	Description	Output at 60 cycles / min	Max Output Pressure	Air Inlet NPT F	Weight (kg)
X60DH3	Cart Mounted Package	12.9 ltr/min	6000 psi	3/4	110
