Merkur Air Assisted Sprayer

The Graco Merkur Air Assisted Airless with G40 Gun package combines hydraulic airless pressure at the spray tip, plus the introduction of air into the fluid stream at the face of an air cap. All stainless wetted parts construction for water based or solvent based materials.

The dual atomisation results in a fine spray pattern, giving a high quality finish that standard airless systems does not produce, whilst still maintaining a fast coverage speed.

Supplied as a ready to go package - with:

- Cart Mounted Merkur Pump, G40 Spray Gun with fixed or reversible tip, 7.5 m x air and paint hose with whip hose, 1 metre Suction Hose and wand, 3 stage paint filter system.

Typical uses :

- Ideal for furniture manufacture, and joiners. For fast, professional fine finish spraying with light viscosity, water and solvent based materials.

Configurations and Options :

- The pump is available with a large number of options and configurations from 10:1 ratio to 48:1 ratio, with mountings for wall, hopper, stand, or cart. Additions such as heaters, or digital usage monitors can be specified. It can be bought as a bare pump, or with a choice of guns.
